

For more than twenty-five years, Novick Group has retained our focus on a narrow and targeted client profile, specializing in the nonprofit market. Few brokers can claim our experience and depth of knowledge working with exempt organizations. Our role is to help clients better understand their own needs and, with our assistance, to help them make informed decisions around that understanding.

Advocacy on behalf of a client...guided only by the best interests of the client, is the foundation responsibility of every Novick Group employee. Licensed to operate in all fifty states, we represent most major insurance companies and serve the needs of over fifteen hundred nonprofit clients nationwide, including associations, professional societies, educational institutions, advocacy groups, and health service providers. For more information, please visit www.novickgroup.com.
